# Annual Report on the Administration of the Bharatpur State for Sambat 1938 (Nov. 1931-Oct. 1932).

## Chapter I—General and Political.

1. **Situation, Boundary, Area, Population, Revenue and Tribute.**—The State of Bharatpur lies in the North-East of Rajputana between latitude 26°43' and 27°50" and longitude 76°54" and 77°48", the extreme length and breadth being 76 and 48 miles respectively.

The State is divided North and South almost in two equal parts by the metre gauge, B. B. & C. I. Railway line, whose direction is almost trans. East and West. The Nagda Muttra Railway, a broad gauge section of the B. B. & C. I. Railway, including the Bayana Agra Railway crosses the metre gauge at Bharatpur and runs for about 68½ miles in State territory. The State is bounded on the North by the Gurgaon District of the Punjab, on the West by Alwar State, on the South-West by Jaipur, Karauli and Dholpur States and on the East by the Agra and Muttra Districts of the United Provinces. The General aspect of the State resembles an alluvial plain, fairly well wooded and cultivated, with detached hills in the North and hilly and broken districts in the South and low ranges in parts of the Western and North-Eastern frontiers. The State covers an area of about 1993 square miles and has a population of 4,86,954 according to the Census of 1931.

The normal Revenue of the State during the year was 21,05,571 as against 24,84,818, last year. The State pays no tribute to the British Government nor to any other State.

2. **His Highness the Maharaja Sahib's Name, Title and Health.**—The present Ruler of the State is His Highness Brijendra Sawai Shri Brijendra Singhji Sahib Bahadur, Bahadur Jang, a Sinsinwar Jat by caste. He was born on 1st December 1918. He and his three brothers named Rao Raja Sri Girendra Raj Singhji, Rao Raja Sri Edward Man Singhji and Rao Raja Sri Girraj Saran Singhji, remained in Europe throughout the year under report for reasons of health and education. Reports received show that His Highness' health as well as that of his brothers is improving and that satisfactory progress is being made with regard to education.

3. **His Highness the Maharaja's Relations.**—The Ruler of Bharatpur is related to His Highness the Maharaja of Patiala, His Highness the Maharaj Rana of Dholpur and His Highness the Raja of Faridkot.

4. **Principal Events.**—His Highness arrived at Bharatpur from England on 13th February and stayed till the 3rd March 1932. ## Chapter II. Revenue Department.

7. The charge of the Revenue Member besides the Land Revenue proper has also included the following departments:—

1. Customs & Excise.
2. Co-operative Credit Societies and Banks.
3. Agri-Horticulture.
4. Veterinary Hospitals.
5. Cattle Fairs.
6. Courts of Wards.
7. Dairy Farm and Gaushala, and
8. Deodhi Bank.

As required by the new rules, the water rate has been assessed separately from the land revenue demand on the matured area only. Rs. 76,937 have been realised on 88,436 bighas as against Rs. 83,665 on 81,610 bighas in the preceding year. The decrease in the total amount realised inspite of an increase in the total matured area is due to the greater preponderance of the Yakbara Sairaba (Flooded once).

The repairing and maintaining of works of irrigation has continued satisfactorily during the year.

(b) *Irrigation from British India Canals.*—3,529 bighas as against 4,344 bighas were irrigated from British India canals. Rs. 3,238 as against Rs. 5,897-14-9 were realised on account of water rate and remitted to the Irrigation Department of the United Provinces.

20. **Natural and other Calamities.**—(1) The Rabi crop during the year under report suffered heavily on account of lack of rain.

(2.) Rinderpest and foot and mouth diseases appeared among cattle, but the Veterinary Department took steps to combat these.

(3.) Fire accidents. The following figures give relevant information.—

Year.	No. of Villages affected.	No. of accidents.	Estimated loss of property.	Loss of human beings.	Loss of animals.
1930-31	152	178	Rs 83,416-6-3	9	156
1931-32	153	165	Rs 65,393-0-0	8	174

All the cases were accidental and occurred mostly in the dry season preceding the outbreak of the monsoon. Taccavi advances were given in deserving cases to relieve distress.

21. **Disposal of State Lands.**—During the year under report 566 files have been dealt with by the Revenue Member. The monthly auctions which were prescribed to be conducted by the Deputy Collectors at the Head quarters of each tehsil have proved useful and have expedited the disposal of State lands.

22. **Economic condition of the zimindars.**—The economic condition of the zimindars was slightly better than it was in the preceding year, because the harvests of the year were better, but on the whole they are still heavily indebted and have no reserve power. Efforts have been continued to improve their lot by furthering the Co-operative Credit movement, granting them suitable remissions and suspensions of land revenue, remission of old arrears and reduction of custom duty in order to enable them to dispose of their produce at a fair price. The Mortgage Redemption Act which was introduced last year and which provided a summary procedure for the redemption of mortgages has begun to function and six cases were disposed of under the provisions of this law.

23. **Working of the Revenue Courts.**—Statement No. I shows statistics as regards the institution and disposal of land suits by the Revenue Courts exercising original jurisdiction. These figures are summarised below for convenience of reference.—

Year.	Opening balance.	Filed during the year.	Total for disposal.	Disposed of during the year.	Closing balance.
1930-31	51	315	366	305	61

25. **Appellate work.**—(Statement V). The Revenue Member had 23 cases to dispose of and all of these were decided. The Deputy Collector, Bharatpur had 22 cases out of which 19 were disposed of. The Deputy Collector, Dig disposed of all the 4 cases which were instituted in his court.

26. **Record work.** With the introduction of the revised assessment, new rules have been introduced for suspensions and remissions of land revenue, remissions, of land revenue demand on wells or works of irrigation falling out of use and recording of the failed area. The statements in village note books have also been amplified. All these changes have been actually introduced and the work done by the Revenue staff has been satisfactory. Jamabandis for all the estates were completed in order to form the basis of the programme of quadrennial preparation of Jamabandis in the future.

#### CUSTOMS AND EXCISE DEPARTMENT.

27. **General.** Besides the Customs and Excise, this department also collects octroi duty on behalf of Municipal and Sanitary Boards and certain dues are also levied on behalf of Shri Guroj Ganshaba.

*Superior Staff.* M. Maqsoodul Hassan was retired with effect from 7th August 1932 and was succeeded by A. Sham Lal. Lt. Siffarish Hussain has continued to work as Assistant Superintendent throughout the year.

28. **Chaukis and Chabutras.**—As a result of the re-organization of the department, the number of chaukis was reduced from 110 to 102 and of Chabutras from 15 to 14.

*Changes in Tariff.* In order to help the zamindars in the disposal of their produce, custom duty was reduced as follows, during the collection period of the Kharif and Rabi demands.

In the case of Kharif food grains the duty was raised to annas 2 per maund after the collection period instead of to the pre-reduction rate of annas 4 per maund.

*Receipts.*—The following figures show the income under various heads as compared with the figures of the preceding year:—

Most of the cases were miscellaneous. The disposal has been satisfactory.

30. **Excise.**—The system of excise administration is that which is known as the Madras system. Excise articles are imported under permits from the Political Agent, and are stored in the State Ware Houses at Bharatpur, Bayana and Dig, whence they are issued to licensed retail vendors. The total fee from licenses for the sale of liquor and excisable drugs and the income from duty on these is compared below with that in the preceding year:—

Head.	St. 1987 (1930-31).			St. 1988 (1931-32).		
	License fee.	Excise duty.	Total	License fee.	Excise duty.	Total.
	Rs	Rs	Rs	Rs	Rs	Rs
Liquor.	8,175-1	13,734-12-11	21,909-13-11	7,059-6-9	12,764-12-8	20,824-3-5

a. *Liquor.* There is only one license for the sale of foreign liquor, the remaining 30 being for the sale of country liquor. Out of the latter, as sufficient bids were not received for 5 shops the liquor was sold departmentally in those areas in sealed bottles.

The issue price from the Ware House remained the same, i. e., Rs. 7 per gallon of 25 under proof. The total sale of liquor during the year under report was 1672'83 gallons as against 1654'5 gallons in the preceding year. The total income consequently shows an increase of Rs. 29-15 over the last year's figures.

b. *Excisable drugs.* Licenses for opium and other excisable drugs were issued to 24 licensees. The issue price of opium and other excisable drugs remained the same as in the previous year. The following statement shows the total sales of these drugs during the year under report as compared with the preceding year.

	Quantity sold during St. 1987 (1930-31).			Quantity sold in St. 1988 (1931-32).			Increase or decrease.		
	Mds.	sr.	ch.	Mds.	sr.	ch.	Mds.	sr.	ch.

The total income from the sale of these drugs was Rs. 22,121-13-7 as against Rs. 16,194-5-9 of the year before, showing an increase of Rs. 4,927-7-10. This is due to increased consumption.

**Excise offences.** Excise offences detected during the year under report have been as follows:

1. Case of illegal sale of Opium including one pending from the last year	4
2. Cases of illegal sale of Bhang	4
3. Cases of illegal sale of Wine	5
4. Cases of illegal sale of Charas	1
5. Cases of illegal sale of poppy head	1
<b>Total</b>	<b>15</b>

Offenders were convicted by the Judicial Courts in 8 cases. 7 cases were still pending at the close of the year.

**Total income and expenditure.** The total income from Customs and Excise during the year under report has been Rs. 4,91,543-13-9 as against 3,40,108-7-5, showing an increase of Rs. 1,51,435-6-4.

The total expenditure has been Rs. 45,272-15-7 as against Rs. 43,650-14-6 of the preceding year. This is partly due to the better equipment of the detective arrangements of the department and partly to the refunds allowed, having been Rs. 1,519-13-9 as against Rs. 854-10-3 in the preceding year.

**31. Octroi.** The duty collected on behalf of local bodies and the Shri Girraj Gaushala during the year under report is compared below with the figures of the previous year.

	1930-31	1931-32
Municipal Board, Bharatpur.	Rs. 24,975-5-0	Rs. 27,491-6-6
Municipal Board, Deeg.	Rs. 9,422-12-2	Rs. 9,801-1-0
Shri Girraj Gaushala.	Rs. 2,555-9-0	Rs. 2,786-9-0

The increase is due to larger imports.

**32. Dairy Farm and Shri Girraj Gaushala.** Both these departments have been put under one Officer since July 1932 and are being reorganized. The present staff is as follows:—

1. Manager. Lt. Fateh Singh.
2. Dairying Officer. Mr. P. K. Ganguly I. P. D.
3. Cattle Breeding Officer. Dr. Razwan Hussain.

The Dairying side is being brought up to date. The objects of the Gaushala were (1) to afford asylum to disabled cows and (2) to form the nucleus of a breeding centre from where the zimindars could purchase good bullocks at a reasonable price. In order to secure these ends, the headquarters of the Gaushala have now been reshifted to Bharatpur from Kumber. Disabled animals are properly looked after and medically treated, while 10 'Hariana' bulls and 6 cows have been purchased and the work of breeding has been properly started.

**33. Agri-Horti-cultural Department.** Mr. K. K. Paragar was employed in January 1932 on special duty for the destruction of rats and eventually relieved Mr. S. K. Kaula of the charge of the Agri-Horti-cultural department in May 1932.

**34. Gardens.** The number of gardens directly managed in the year under report was 99 as against 97 in the preceding year. The remaining 9 gardens are on lease.

**35. Agriculture.** (a) **Experimental Farm.** Experiments in the Paacca Bagh Farm have continued. Besides 8 A wheat, Malvi cotton and groundnuts were tried. A Scheme of Kharif sowings, suggested by the Plant Institute of Indore was attempted, but partly owing to the failure of rains and partly owing to the want of proper supervision the experiments were not a success.

(b) **Demonstration.** Demonstrations of improved implements were given at the Bharatpur and Deeg Cattle Fairs.

(c) *Agricultural Exhibition.* On the occasion of the Shri Jaswant Cattle Fair and Exhibition, an agricultural exhibition was organized. It consisted of two Sections, (1) demonstration and (2) exhibition. In the demonstration Section the State exhibits were supplemented by exhibits from the Plant Institute of Indore. On the exhibition side, there was a separate section for zimindars. The number of exhibits was 178 as against 145 in the preceding year and liberal prizes were awarded for successful exhibits. A ploughing competition of modern and local ploughs was also held. The judging in the Agricultural Section and in the Ploughing competition was done by Mr. M. L. Saxena, the Extension Officer of the Plant Institute of Indore. Besides the above a free exhibition of agricultural films was given by the Plant Institute during the period of the fair.

**Income.** The estimated income during the year under report was Rs. 5,510 out of which the actual income amounted to Rs. 4,530. Some of the old arrears could not be recovered owing to depressed conditions.

**Expenditure.** The budgetted expenditure was Rs. 28,121 and the actual expenditure incurred has been Rs. 26,691 as against Rs. 30,767 in the preceding year.

**36. Veterinary Department.**—The charge of the Veterinary Department has continued with Dr. Jamal Uddin, Chief Veterinary Officer.

*Dispensaries.* These are at Bharatpur, Bayana, Dig and Kanjoli Lines (Bharatpur). The one at Gopalgarh was brought under reduction in the year under report.

*Studs.* The number of stallions maintained during the year under report was as follows:—

Name of place.	Kind of stallion.	Breed.
Bharatpur	Horse.	Country.
"	"	Arab.
Bayana	"	Country.
Deeg	"	Country.
"	"	Donkey.

The number of mares covered during the year was 141 as against 124 in the preceding year. Out of these 29 foaled as against 34. This low percentage is due to lack of proper precautions by the owners.

*Out-door and In-door patients.* The following figures indicate the differences between the present and preceding years:—

	1930-31	1931-32.
In-door patients	788	634.
Out-door patients	1,00,834	93,563.
Total in-door and out-door patients	1,01,582	94,197.

The daily average of in-door patients has continued to be 2, while that of the out-door patients has been 256 animals per day as against 276 in the preceding year.

*Epidemics and preventive measures.* Foot and mouth disease and rinderpest broke out in some villages. 518 cattle were inoculated against rinderpest as against 311 in the preceding year. 157 bullocks were castrated. Many more bullocks should be castrated. A regular tour of the Veterinary Officers for the purpose has been proscribed and castration is done free of charge. It is hoped that the people will take advantage of the facilities now available to them.

*Income and Expenditure.* The actual income was Rs. 424-0-6 as against Rs. 518 in the preceding year. Almost all of it depends on the amount of shoeing of the animals which is performed in the hospital at Bharatpur. The budgetted expenditure was Rs. 9,145 as against Rs. 10,284 in the preceding year and the amount actually spent has been Rs. 8,231-13-0 as against Rs. 9,390

37. **Co-operative Credit Societies.**—The Revenue Member continued to work as the Registrar. The supervising staff consisted of the following officers:—

1. Deputy Registrar	1.
2. Assistant Registrar	1.
3. Inspector	1.

The Deputy Registrar has also worked as the Manager of the Shri Krishna Bank.

38. **Shri Krishna Bank.**—This bank is in essence a Central Co-operative Bank. Its only peculiar feature is that advances to State employees can also be made from its capital.

*Advances to individuals.*—The individuals owed Rs. 56,314 at the beginning of the year and Rs. 16,235 were advanced during the year. The total amount of loans thus came to Rs. 72,540. Out of these Rs. 32,240 were recovered leaving a balance of Rs. 40,300-8-6 at the end of the year.

*Societies.* The following statement gives relevant figures regarding the number and condition of Societies as compared with the preceding year.

Year.	Registered Societies.	Unregistered Societies.	Total Societies.	Members.	Working Capital.	Reserve fund.
1930-31	154	92	246	4,382	Rs. 1,67,733	Rs. 22,984.
1931-32	166	88	254	4,622	Rs. 3,31,258	Rs. 47,000.

The societies in the State are generally of the rural type with unlimited liability. The defects pointed out in the last year's report have nearly been removed. Audit work has been completed and up-to-date registers and forms have been introduced. In order to determine the exact position of the societies a classification was undertaken which has shown that there is not a single society which is independent and can do without loans either from the money-lenders or from the Central Bank. 23 societies only abstain from dealings with money-lenders, while 122 depend both on the Bank and on money-lenders. The remaining 21 societies were in an unsound condition.

The above classification incidentally also reflects the real progress which has been made in the movement. The greatest drawback so far has been that no check has been placed on the reckless borrowing habit of the members. In order to encourage a spirit of thrift, a standard of necessary expenditure on various social occasions has been prescribed and the members are allowed loans subject to the usual conditions, up to the limits laid down in the above scale. One condition attaching to these advances is that no loans are permitted to be contracted from any other person on these occasions. It is therefore trusted that these advances will have the effect of checking extravagance and thus saving the members from indebtedness. Then again, in order to increase the credit of the societies, efforts have been made to induce the members to grow more timber in their holdings which in course of a few years will become valuable property. Finally, rules for the adjustment of debts prior to becoming a member of the society are under contemplation. In this way not only will the members be relieved of the old debts which burden them, but the movement will also cease to attract the opposition of the money-lending classes in its progress on proper lines.

39. **Cattle Fairs.** In the last year's report, it was mentioned that the number of fairs had been increased to 8. Out of these, the fairs at Nadbai and Rupbas could not be held in the year under report as the time fixed for them had passed before the scheme was sanctioned. The Income from and the expenditure in connection with the remaining fairs is given below:—

	Income. Rs	Expenditure. Rs
1. Bharatpur.	5,525-2-6 (held in Oct 32.)	2,698-11-9 (held in Oct 31.)

2. Deeg.	1,003-0-0	318-9-0
3. Kaman.	171-3-9	262-13-0
4. Jheel-ka-bara.	249-12-0	32-7-6
5. Nagar.	94-0-0	5-11-3
6. Weir.	88-7-0	9-6-0
Total.	7,223-2-6	3,236-1-3

The admission fee on castrated bullocks was provisionally reduced to Rs 0-1-0 per head in the Shri Jaswant Cattle Fair.

The income on account of customs duty levied on the sale of animals is included under the head Customs "Other sources".

The most important fair is the Shri Jaswant Cattle Fair held at Bharatpur. Industrial, Agri-Horti-cultural and Poultry exhibitions were held during this fair and were very successful. Prizes to deserving cattle of all classes were also given.

40. **Courts of Wards.** The following statement gives information with regard to the working of the Courts of Wards incharge of the Revenue Department.

41. **Deodhi Bank.** The Bank was administered by Her late Highness, the Maharani Sahiba, till the administration of the Deodhi tehsil was taken over by the State. Since then the work has been supervised by the Revenue staff. The main object of the Bank is the same as that of the Shri Krishna Bank. The following figures show the demand and the amount actually recovered in the year under report.

Individual loans have now been greatly restricted. The condition of the societies is nearly the same as reported last year. It has not been possible to regularise these institutions, because the reorganization of the Shri Krishna Bank Societies had first to be completed. The working of the societies is supervised by the tehsil staff and not by Secretaries. The dues are also collected by the former and 12½ per cent of the interest recovered is disbursed to the staff as a collection fee. Owing to economic depression more collections were not practicable. It is hoped that the Societies financed by this bank will be regularised in the next year.

Thus there were altogether 3046 cases for disposal during the year, of which 2844 were disposed of leaving a balance of 202 pending at the close of the year. Out of the 2844 cases disposed of, 447 were decided ex parte, 1291 admitted or compromised, 477 struck off the file and 716 otherwise disposed of.

It is satisfactory to note that all the courts have on the whole worked satisfactorily and with diligence.

## Chapter IV. FINANCE.

43. The Finance Department continued in charge of Mr. N. D. Chokra, the present Financial Secretary, throughout the year.

The work of annual inspections was carried regularly. Almost all the departments of the State were inspected during the year under report and some irregularities continued to be brought to light. These audits have resulted in great improvement in departmental accounts.

The system of keeping accounts of permanent imprests and recoupment thereof introduced last year has simplified and accelerated work to a remarkable extent.

The financial working of the year will be seen from Appendix IV and may be summarised as under.—

Total actual income	Normal.	Rs 23,05,571
Total actual income	Abnormal:—	
(a) Departmental income.	Rs 51,223	
(b) Loans from Government of India.	Rs 1,50,000	
Total.	Rs 2,01,223	
Grand total.	Rs 25,06,794	

Total actual expenditure	Normal.	Rs 20,74,005
Total actual expenditure	Abnormal.	
(a) Departmental expenditure		Rs 43,690
(b) Repayment of loan to Jaipur Durbar		„ 1,50,000
(c) Other local loans and liabilities		„ 73,090
		Rs 2,66,780
Grand total		Rs 23,40,785
Year's surplus		1,66,009

It will appear that the normal income of the State showed a further drop (of approximately Rs. 1,80,000) being only Rs. 23,05,571 against Rs. 24,84,818 in the previous year. This was the 5th bad year in succession in the State. The monsoon was weak and ill distributed and there was an entire absence of winter rain. The revised assessment was also partly responsible for the decrease in revenue. The low prices of raw produce further aggravated the local conditions. Very strict economies had accordingly to be practised in expenditure, with the results shown in the above summary. The normal expenditure for the year, Rs 20,74,005 is the lowest for years and represents the absolute minimum beyond which it is not possible to decrease without loss of efficiency and deterioration of roads, buildings, bands, and other essential public works.

The year was, however, very good so far as the assigned revenues were concerned, the total income in the year being Rs. 5,79,160 as Rs. 4,43,253 in the previous year, meaning an improvement of Rs. 1,35,907. This income is considered the normal income of the State under this head, though it has not been realized for several years. Further advance repayments of the Government loan to the aggregate of Rs. 4,10,000 were made during the year, the total advances now being Rs. 6,10,000.

Besides this, the payments of interest and capital due under the Amortization Scheme were made as they fell due.

The payment of liabilities including the Debenture and the Flood Loans is now nearly complete. With Rs. 73,090 paid under this head, during the year the total payments so far made aggregate Rs. 55,90,987 and a sum of Rs. 40,000 has been provided for the remaining payments in the next year.

The work of weeding old accounts records started last year is still in progress and will take with the present staff about three to four years more to complete.

56. **Public Works Branch.** (a) *Receipts and Expenditure.* The general income and expenditure of the Public Works Branch during the year was as follows:—

	Original Budget.	Revised Budget.	Actuals.
Income.	17,500	20,819	23,779
Expenditure.	3,11,695	3,10,816	2,79,097

It will be seen that the income exceeded the budgetted amount by Rs. 2,960 and the expenditure was Rs. 31,719 less than the budget grant.

(b) *Irrigation.* Rs. 98,812 were spent on irrigation works against Rs. 1,04,917 the limit fixed after certain reductions in grants had been ordered. Extensive repairs to existing works were carried out. No original work was done. The result of the irrigation works for 1930-31 has been dealt with in detail in the Annual Irrigation Report. In 1930-31 3,69,009 bighas were irrigated and Rs. 89,563 realized in water taxes. The report of the year 1931-32 will be prepared when the figures of areas irrigated are available after the present Rabi.

The monsoon of 1932 was unfavourable in the North of the State and fair in the Southern area. The Ruparel River gave few floods. The floods from the Banganga and Gambhir Rivers were moderate. Few bunds in the North were filled, while in the South most of the bunds were filled or nearly filled. Another 6 inches of rainfall would have been very welcome. The Bareta Bund catchment unfortunately had small rainfall and the volume of water impounded by the end of the monsoon was only above  $\frac{1}{2}$  of the full capacity of the reservoir. The bunds and canals are in good order, but further remodelling is necessary in many places. Restoration of irrigation works is proceeding steadily.

The U. P. Government has decided definitely not to agree to the construction of a canal from the Main Agra Canal.

The construction of a new bund at Khanwa is still under consideration.

(c) *Roads.* There are 185 miles of metalled road in the State out of which 136 miles are maintained.

A grant of Rs. 34,216 was made by the Government of India out of 'Central Road Fund' for repairs to the Jaipur Road as a fair weather road. A further grant of Rs. 14,644 has recently been obtained from the Government of India with the object of slabbing a mile of the Jaipur Road as an experiment, in view of the heavy cost of maintenance of a metalled road. If this is successful it is hoped a further grant will be obtained.

A sum of Rs. 1,740 was also received from the Government of India as the State's share of road funds which was utilised on the Seola Bareta Road. The work has now been completed.

Of the metalled road 27 miles were remeta lled during the year and all the roads were maintained.

130½ miles of fair weather road were maintained.

Rs. 52,530 out of the final allotment for expenditure of Rs. 55,374 were expended. Out of the former Rs. 51,320 were spent on the metalled roads or Rs. 378 per mile of pucca road maintained, and Rs. 1,210 on Kuchcha roads. All important metalled roads are in good order.

(d) *Buildings.* Rs. 3,582 were spent on original buildings and Rs. 62,479 on repairs, total expenditure being Rs. 66,311 against Rs. 69,128 the final allotment for expenditure. Building operations were confined to repairs necessary to keep the existing buildings in reasonable order, and to provide the most necessary extensions and improvements. Many desirable building works had to be postponed on account of lack of funds.

(e) *Nazool.* The net income was Rs. 7,833 against a budget of Rs. 7,000. The expenditure on the staff was Rs. 732 and on repairs to buildings Rs. 692. Both the items are included in the expenditure of the Public Works Branch.

**57. Mechanical Branch.** (a) *Power House.* The general income and expenditure of the Power House was as follows:—

	Original Budget.		Revised Budget.		Actuals.
	Normal.	Abnormal	Normal.	Abnormal.	
Income ...	34,200	...	56,950	...	40,271
Expenditure ...	38,335	...	47,299	10,100	56,851

The working of the Power House has given considerable anxiety throughout the year. The Krupp Engines required overhauling, and the smaller engines were in an unsatisfactory condition. The purchase of a new Ruston Hornsby Patent Airless Atomiser, four cylinder, cold starting Diesel Engine and 90 K. W. Generator, the erection of which has recently been completed, has placed the Power House in a much more satisfactory condition. The small Krupp Engine has been thoroughly overhauled and the large Krupp Engine is being overhauled.

In spite of the difficulties during the year under review the Bombay Baroda and Central India Railway was given all the Power it needed for lighting Bharatpur Station and pumping and a revenue of Rs. 6,761 was received from this source against Rs. 8,918 of last year.

Some transmission lines were renewed and a permanent new line was erected from Anah gate to the site of the Jaswant Exhibition ground.

During the year 16 new meters were connected and 17 flat rate connections were given. 8 meters and 45 flat rate connections were disconnected. One more 7½ H. P. mill was connected.

The rate of flat rate was raised from Re. 1 per light to Re. 1-3-0 per light.

(b) *Telephone*. The general income and expenditure of the Telephone Branch was as follows:—

	Original Budget.	Revised Budget.	Actuals.
Income ...	2,275	2,275	2,186
Expenditure ...	15,522	15,556	15,070

The Telephone operation was satisfactory.

(c) *State Garage & Workshop*. The figures of income and expenditure of the department are as follows:—

	Original Budget.	Revised Budget.	Actuals
Income ...	5,869	10,661	10,797
Expenditure ..	22,093	39,218	35,688

Two new Ford cars were purchased during the year.

Petrol was formerly supplied from the pump owned by an agent of the Burmah Shell Co. Arrangements were made whereby the State Garage took over the Agency from 19-7-1932. The State gets the benefit of rebates. The income derived from 19-7-1932 to the end of the year was Rs. 3,156 and the expenditure thereon was Rs. 2,171 leaving a net profit of Rs. 985.

58. *Stone Quarries*. The Quarries were worked departmentally as last year. The general income and expenditure of the department was as follows:—

	Original Budget.	Revised Budget	Actuals.
Income ...	1,62,200	1,40,075	1,44,640
Expenditure	1,05,322	90,141	91,929

The slight increase in expenditure over the budget grant is due to the quarrying of stone during the monsoons which was found possible owing to scanty rains. No provision for this was made in the budget. There has, however, been a corresponding increase in the income. These figures include Taccavi advances of Rs. 15,000. The total out-turn (sale) of stone during the year was 3,68,600 Mds. sand stone and 37,613 Sft. flooring stone. In addition 28,000 Cft Khandas were granted free of Royalty to Zamindars for constructing irrigation wells.

The net revenue realized from the Quarries was Rs. 52,711 as detailed below:—

Receipts	...	Rs. 1,29,640
Deduct expenditure	...	76,929
Net Revenue	...	52,711

The results are satisfactory considering the depressed state of the trade and the slackening of the demand for stone.
